Call for Proposals for Invited Sessions and Submission of Contributed Papers

Conference Location: Bank Negara Malaysia, Kuala Lumpur, MALAYSIA
Conference Dates: 16-19 November 2014

The ISI-Regional Statistics Conference 2014 (ISI-RSC 2014) is being organised by the ISI and its South East Asia Regional Network, in collaboration with Bank Negara Malaysia (Central Bank of Malaysia), Department of Statistics Malaysia and the Malaysia Institute of Statistics.

The conference aims to bring together statistical researchers and practitioners as well as users and policymakers from around the world to discuss new developments in statistical science. There will be plenary sessions as well as parallel sessions with invited and contributed papers. The topics will cover research, applications and best practices for knowledge discovery and innovation. There will be many opportunities for participants to share information and expertise while also learning from peers around the world. The conference will be preceded by workshops and a seminar of the Irving Fisher Committee on Central Bank Statistics.

The Scientific Programme Committee is now calling for proposals for the Invited Sessions and submissions of Contributed Papers. The conference theme, “Statistical Science for a Better Tomorrow”, is intentionally broad to allow for a diverse programme and attract participants with diverse interests. We encourage researchers and practitioners who are actively involved in statistical science in academia, industry, national statistical offices, national and international agencies, central banks, and other groups to participate in the conference.

The closing dates for submission of Invited Session proposals or Contributed Papers are as follows:

Invited Sessions Proposals: 31 May 2014
Contributed Papers: 15 June 2014

For further information on the submission requirements and procedures for Invited Sessions and Contributed Papers, kindly visit the Scientific Programme page on the ISI-RSC 2014 website (www.isi-rsc2014.my) or contact the Scientific Programme Committee at programme@isi-rsc2014.my.

We would also appreciate if you can share this information with your colleagues and other potential participants. We look forward to meeting you in Kuala Lumpur.

On behalf of the Organisers:
