

2ND YOUNG AFRICAN STATISTICIANS CONFERENCE 2010

South Africa
28 - 31 July 2010

Call for Papers!

**Deadline for submission of Abstracts:
26 April 2010**

The IS/balo Capacity Building Programme would like to announce its first call for papers from African statisticians for the 2nd Conference of Young African Statisticians to be held in South Africa, 28 - 31 July 2010.

The conference theme '*Durban to Dublin: Doubling the Young African Statisticians Efforts*' emphasises the importance of capacity building and mentoring young statisticians for the coming 58th Session of the International Statistical Institute (ISI) in Dublin, Ireland in 2011. The conference aims to present young statisticians with an opportunity

to present papers of relevance to official statistics in Africa and matters pertinent to Africa's development. "Efforts to report on progress towards the Millennium Development Goals (MDG's) have highlighted the need to improve the capacity of developing countries to produce, analyse and disseminate data," United Nations 2009 MDGs Report.

A handwritten signature in black ink, appearing to read 'Pali Lehohla'.

Pali Lehohla

Statistics South Africa's Statistician-General

"Durban to Dublin: Doubling the Young African Statisticians Efforts"
